REASON FOR ALLOWANCE

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reason for allowance:

After reviewing the appeal brief filed on February 17, 2005 and reading the explanation on how internally controller charges the particles (on pages 9-11), examiner has decided to allow the claims 1-9.

The prior art fails to teach or suggest an image display medium having at least two particles sealed in a space between the pair of substrate and each having only a single color, have a characteristic that at least one kind of them is positively chargeable and at least one other kind of them is negatively and the particles chargeable positively and negatively are of colors different from each other and a charge controller is internally added to one of both of the particles chargeable positively and negatively as claimed in claim 1.

The prior art fails to teach or suggest at least two kinds of insulative non-magnetic fine particles each only having a single color and also having frictional chargeability between each other disposed between the substrate and an electric field generation unit that provides the electric field to the insulative non-magnetic fine particles, the two kinds of insulative non-magnetic fine particles being fine particles of colors different from each other and frictionally chargeable to polarities different from each other as claimed in claim 5.

Art Unit: 2673

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
